Be*

#WhoYouAre

At CEU, we believe that your journey goes far beyond your studies and that's why we're committed to providing an environment that encourages you to take advantage of every day as if it were your last, to solve every case study as if it were real and to participate in all the activities you can to help you reach your full potential. Our ultimate goal is to ensure that you don't just make do with what you have, but instead, you do everything in your power to become who you want to be.

#WhenAndWhere

At our three university campuses in Madrid, Valencia and Barcelona, CEU has over 100 academic offerings in the form of undergraduate degrees, double and dual degrees, postgraduate degrees, doctorates and specialisation courses.

In addition to our universities, CEU has 10 primary and secondary schools, a variety of vocational and professional training centres and a university training programme for adult learners.

CEU in numbers

100

YEARS OLD:

Spain's largest and most prestigious educational institution.

31,000

STUDENTS:

Ranging from 4 to 90 years old.

210,000

ALUMNI:

Become a part of Spain's best and brightest talent pool.

No. 1

IN SCHOLARSHIPS:

Awarded for talent and excellence as well as financial aid.

CEU Advantages

*The shortest distance
between two points is
your drive to succeed.*

The distance is shorter if you truly have the drive to succeed, for only then will you be able to get there first. What are you looking for; international academic or practical experience, your first job? Thanks to our programmes, your goals are within reach.

1. CEU: An International University Experience

Speak: language training courses in English or Spanish included in your tuition.

Share: exchange your ideas with students from over 20 different countries; a Spanish university experience in an international environment.

Explore: international programmes designed for you to complete part of your undergraduate studies at top - tier universities around the world such as Boston, Chicago, UCLA and Fordham.

Think: bilingual degrees so you can learn to think and perform in different languages.

#WhereverIWant

2. CEU Employability

What differentiates CEU from the rest is employability. We focus your education on increasing and diversifying your options to enter the professional world. It isn't enough to have a solid foundation in your field of study; you have to be able to demonstrate that you are also prepared to join the workforce.

According to our research on employability, an average of 95% of our students in particular fields of study find jobs after graduating. What's more, 89% of students found employment directly related to their field of study less than three months after completing their degrees.

Employment research shows that 95% of our postgraduate students find employment directly related to their field of specialisation.

#PassionForKnowledge

Do you want to succeed?

*If your answer is yes,
here are some ways others
achieved their goals.*

3. CEU Entrepreneurship

Today's competitive world requires much more than just a university degree. To enhance your personal and professional growth, your tuition includes supplementary programmes that develop your skills to create, innovate and progress in order to turn your ideas into reality.

StartinCEU Programmes: to promote entrepreneurial and business development skills.

CEU Initiative Programmes: to give students the necessary skills to create initiatives, manage ideas, pitch their products and, ultimately, build their own professional future.

Gifted and Talented Programmes: to help students reach their full potential.

CEU ePlus Programmes: to develop transversal skills and abilities in order to increase your employability.

#Initiative

4. CEU Style University Research

Active research programmes ensure that CEU is much more than just classes. Currently we have more than 70 ongoing research projects valued at an excess of 8 million euros in addition to scholarships for research fellowships.

CEU is the only institution that combines teaching and research projects, providing students with the opportunity to get involved in advanced research and experience first-hand the benefits of advancing in science and technology.

CEU's doctoral programmes are carried out through CEINDO (CEU's International Doctoral School), an inter-university programme for advanced doctoral studies.

While the starting point and finish line are always the same, the path we take isn't. Choosing the right path makes all the difference.

#ActiveResearch

Academic Offerings

CEU offers a full range of programmes ranging from undergraduate to postgraduate degrees and doctoral studies.

Find the right academic programme for you.

Key:

● **INT:** Full English programme.

International Bilingual Programmes

CEU international bilingual programmes offer students the opportunity to study a semester abroad at some of the best universities in the world.

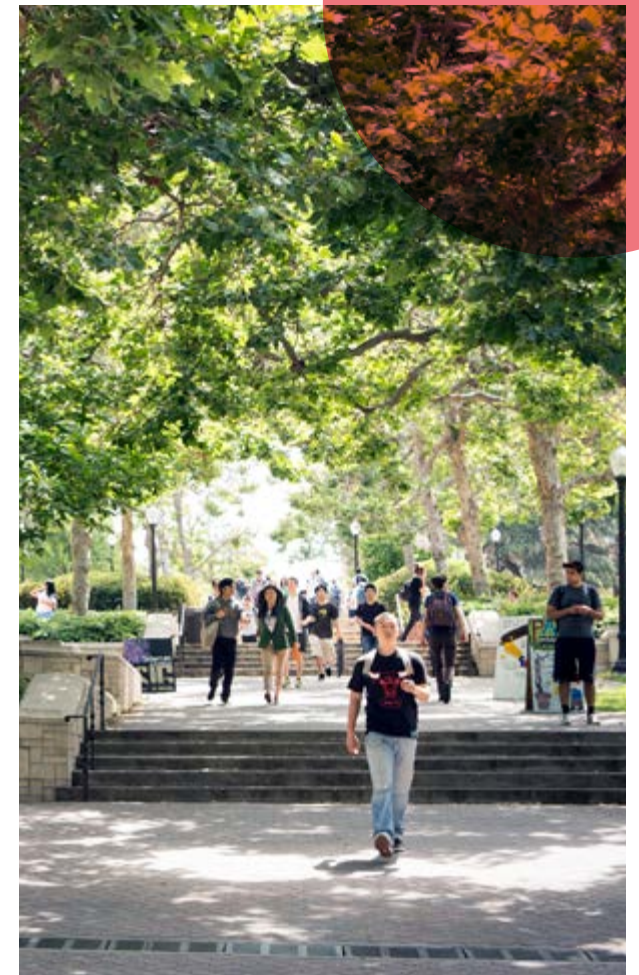

These programmes, offered as part of a unique European agreement, award students with a certificate issued by a prestigious university in the United States in addition to their official degree from CEU.

CEU - Boston University Programme

International Business Certificate

Boston University is ranked 32 in the US News and World Report 2015 Top 500 World University Rankings. This programme, which celebrated its 10th anniversary in 2016, is open to those studying international undergraduate degrees in Business Administration and Management and Advertising and Public Relations (and related dual degrees). It allows students to enhance their knowledge of internationalisation and earn the International Business Certificate granted by the Boston University Metropolitan College International.

CEU-UCLA Programme

Digital Media & Strategic Communications

UCLA has been active for over a hundred years and is ranked 12 in the Shanghai Jiao Tong University world ranking. Thirteen Nobel recipients have graduated from this institution until today.

This programme is open to undergraduate students in the Humanities and Communication departments at the University CEU San Pablo who wish to learn about the latest trends in global strategic communication.

The University of Chicago is ranked 10 in the 2016-2017 Times Higher Education and QS World University Rankings.

Currently, there are 89 Nobel Laureates affiliated with the University of Chicago. The University of Chicago-Graham School for Continuing and Liberal Studies has designed three exclusive academic programmes for CEU students.

CEU - University of Chicago Programme

Business of Biotechnology

This programme is designed for undergraduate students completing a bilingual degree in Biotechnology or a dual degree in Pharmacy and Biotechnology. This programme is an excellent source of training in Biotechnology business development models, capital acquisition, licensing agreements, regulation and the other numerous challenges that international start-up businesses deal with. Students will earn a certificate in Business of Biotechnology upon completion of both the academic programme and the compulsory internship at a US company in the sector.

CEU - University of Chicago Programme

Clinical Trials Management

This programme is aimed at students completing a bilingual undergraduate degree in Pharmacy or a dual degree in Pharmacy and Biotechnology. The broad curriculum of this programme covers best clinical practices, regulatory requirements and compliance, detecting fraud and misconduct and statistics for clinical as well as observational studies at Chicago hospitals. Students will earn the certificate in Clinical Trials Management upon completion of the programme.

CEU - University of Chicago Programme

International Political Economy

A multidisciplinary programme aimed at undergraduate students completing a bilingual degree in Economics or dual degree in Economics and Business Administration and Management. This programme is designed to provide students with the skills to understand international economics, multinational organisations and global politics in order to become innovative thinkers and leaders in an increasingly globalised world. Upon completion students earn the certificate in International Political Economy.

CEU - Fordham University Programme

**Certificate of Compliance
LLM + NY Bar Exam (optional)**

Fordham University is a Jesuit, Catholic university founded in 1841 in New York. Through an agreement between CEU and Fordham's prestigious School of Law, a programme has been created for undergraduate students completing a bilingual degree in Law and European Law as well as a dual degree in Law and Political Science interested in moving on to study an LLM, building their career in International Law or sitting for the New York BAR exam. Upon completion of this programme, students will earn a Certificate of Compliance granted by Fordham University.

Our Universities

CEU San Pablo University

Madrid

CEU San Pablo University's campus is in Madrid, the capital of Spain. With a population of over 3 million, Madrid is a bustling cosmopolitan and multi-ethnic city famous for its vibrant nightlife, gastronomy and cultural and artistic events. The city is also the seat of government as well as the main business hub in Spain. Madrid hosts the largest international student population in Spain and one of the largest in Europe, offering a unique opportunity to experience an international environment.

Humanities and Communication Sciences

The Faculty of Humanities and Communication Sciences was the **first to offer a degree in Journalism in Spain** and is the only one that offers the chance to complete an entire undergraduate degree in **English**.

Law

For over 75 years, the Faculty of Law has been educating students who have moved on to be among the best law professionals in the country. Furthermore, the Faculty of Law is the main venue of for the prestigious legal competition: **The European Law Moot Court Competition**.

Economics and Business

The Faculty of Economics and Business Sciences is recognised for its international focus, **bilingual programmes** offered in collaboration with the universities of **Chicago and Boston** and encouraging entrepreneurial initiatives through StartinCEU.

Pharmacy and Medicine

Our Faculty of Pharmacy and Medicine are renowned for their clinical training, cutting-edge research and state-of-the-art R&D facilities such as the Center for Metabolomics and Bioanalysis (CEMBIO), as well as the Institute of Applied Molecular Medicine (IMMA).

Institute of Technology

The Institute of Technology (EPS) has received Substantial Equivalency from the National Architectural Accrediting Board (NAAB) for its degree in Architecture, which enables students to work in the USA upon completion of their degree.

The EPS has a digital fabrication laboratory, the FabLab Madrid CEU, which belongs to the global network of the Center for Bits and Atoms Laboratory at MIT (**Massachusetts Institute of Technology**). The centre carries out architectural and engineering projects in collaboration with other universities around the world.

CEU Cardenal Herrera University

Valencia

CEU Cardenal Herrera University has campuses in Valencia, Elche and Castellón, all located in the Community of Valencia. Well-known for its beaches, rich culture, parks and nature reserves, Valencia is a comfortable place to live that offers extensive options for transportation to other major cities in Spain and all over the rest of Europe. In recent years, Valencia has been recognised as a leading centre for innovation and design.

Education

The Faculty of Education is recognised for promoting innovative teaching methods in schools and training in multiple intelligences. CEU's Faculty of Education is the only faculty to offer the **Comprehensive Employment Programme for Teachers** as a part of all programmes in education.

Health Sciences

The Health Sciences department at CEU Cardenal Herrera offers a variety of bilingual programmes. The degrees offered at the School of Veterinary Medicine are taught in **three languages (Spanish, English and French)**. This school is also a member of the European Association of Establishments for Veterinary Education (EAEVE) and the International Veterinary Student Association (IVSA).

Institute of Technology

Graduates from the Institute of Technology have received both national and international recognition. This school offers bilingual programmes, officially recognised by the European Professional Qualifiers, which enables graduates to work and sign off on projects in all countries in the European Union.

The Institute's Design programme is among the best in the world, according to Architectural Digest. Students also have the chance to participate in **innovative research projects** such as the Solar Decathlon Europe or the Shell Eco Marathon.

Law and Political Science

The Faculty of Law and Political Science offers students internships at the best national and international law firms and institutions. Degrees offered at this faculty are given with **an international perspective provided through supplementary training programmes**. In addition, the faculty's Law programmes are the only ones in Spain to include the Intensive Public Examination Programme that allows students to begin preparing for law-related public exams in their second year of studies. In addition, Political Science students have political marketing included in their curriculum.

Communications

One of the first of its kind in Spain and with over 30 years of experience with degrees in Advertising and Public Relations, Journalism and Audiovisual Communication, the Faculty of Communication is a pioneer in the Community of Valencia in the field of communications. This faculty offers a wide range of Dual Degrees to bolster employment opportunities for its graduates. In addition to standard curricula, students participate in a new supplementary specialised training programmes focused on communication strategies on the Internet. The school's state-of-the-art facilities provide students with hands-on professional experience by broadcasting real television and radio programmes.

Business and Marketing

The Business and Marketing department offers its students a curriculum specifically designed to ensure future employment. To this end, the programme incorporates an international business framework and perspective as well as tools for innovation through the case study method.

Gastronomy

CEU Cardenal Herrera offers an innovative undergraduate degree in Gastronomy. This programme offers a curriculum that combines hands-on learning of the art of cooking as well as the practical skills required to run a succesful business in the sector. This programme takes place in our state-of-the-art facilities and is taught by professionals who have been awarded multiple Michelin Stars. This degree offers the opportunity to specialise in one of the following areas:

- Executive Chef: Innovation & Research in Gastronomy
- Gastronomy Business: Food & Beverage

Abat Oliba CEU University

Barcelona

The University Abat Oliba CEU is located in Barcelona on the Mediterranean coast. A modern, avant-garde and dynamic city, Barcelona is a warm and welcoming metropolis with great weather all year long. The city is filled with work from world renowned artists and architects such as Picasso, Dali, Miro and Gaudi, making it one of the most unique cities in Europe.

Law and Political Science

The oldest private university to offer Law related degrees in Barcelona. Since 1973 the university has been recognised for educating high-performing lawyers as well as its **bilingual** programme in **International and European Law**.

The university's practical and personalised teaching methodology is applied through case studies resolved in collaboration with law firms, practical seminars and by attending real trials in court.

Communications

Employability is also a distinctive attribute of the Faculty of Communications with a job placement rate of 97% within the first three years after graduation (according to the Catalan Agency for University Quality 2014 labour market survey, 11% higher than the average in all Catalan universities).

Programmes at the Faculty of Communications are focused on encouraging students to have an entrepreneurial spirit and to be creative using the latest technology, analysing reality and applying knowledge. Students completing a degree in Advertising and Public Relations organise the GoliAds Awards every year, a benchmark of quality among advertising agencies.

Economics and Business

The Faculty of Economics and Business has the **highest graduate employment rate** of all Catalan universities (98% according to the Catalan Agency of University Quality). The university places a great deal of importance on internationalisation through its bilingual programmes in Business Administration and the new **Global Business degree** (180 ECTS). The university also places a great deal of importance on entrepreneurship, which is encouraged through the Entrepreneurs Club, created by students themselves. On a yearly basis, this club organises the Entrepreneurial Marathon "BCN Thinking Challenge."

Education

One of the fundamental goals of the academic offerings at the Faculty of Education and Humanities is to provide students with an international education. To this end, Preschool and Primary Education degrees can be done in English and students have the opportunity to study and do internships in England and Ireland (St. Joseph's Junior Primary School, Belmont Junior School and Underhill Junior School). Our methodology integrates theory and practice: from the beginning of their studies, students get experience with the profession by taking classes at the Abat Oliba Foundation in Barcelona.

Health Sciences

The Faculty of Psychology, characterised by its humanist values, encourages students to be active and take initiative during their studies.

The role of the “Internal student researcher” was created to give students the opportunity to gain experience as research assistants, either in a university team or in hospitals.

More than 70% of the faculty are working professionals specialised in the field they teach.

It is the only Catalan university that offers a Dual Degree in **Psychology + Criminology and Security**.

CEU International School of Doctoral Studies (CEINDO)

CEINDO offers our students a variety of programmes, projects at both national and international levels, the support of experienced researchers and mentors and the possibility to collaborate with prestigious universities worldwide.

DOCTORAL PROGRAMMES

Health Science and Technology

This doctoral programme is offered at the CEU Universities San Pablo and Cardenal Herrera and provides students with the opportunity to produce outstanding, cutting-edge research on drugs and diseases.

Areas of Research
» AREA 1. Electronic and Electrochemical Technologies in Health and Environment
» AREA 2. Molecular and Metabolic Bases of a Disease
» AREA 3. Biotechnology of Plants and Microorganisms
» AREA 4. Food Safety, Nutrition and Technology
» AREA 5. Discovery, Development and Evaluation of Drugs and Medicines
» AREA 6. Pathology and Human and Animal Health
» AREA 7. Structural and Functional Bases of Biological Systems

Composition, History and Technique in Architecture and Urbanism

Students who undertake this doctoral programme at the CEU Universities San Pablo and Cardenal Herrera specialise in a range of areas, from the most conceptual to the most concrete, in the fields of Architecture and Urbanism.

Areas of Research
» AREA 1. Theory, Space and Design
» AREA 2. Construction, Innovation and Technology

Social Communication

This programme is offered at our three CEU Universities and it is designed for students who are interested in developing R&D projects within the guidelines of the

Areas of Research
» AREA 1. Digital Society, Communications and Vulnerable Public
» AREA 2. Communications, Public Sphere and Citizenship
» AREA 3. Specialised Communications, Innovation and Technology

Law and Economics

This programme is offered at our three CEU Universities and allows students to explore a wide range of disciplines and areas within the fields of Law and Economics.

Areas of Research
» AREA 1. Economy and Finance
» AREA 2. Law, Economy and the Environment
» AREA 3. Law and Economy of the Information Society
» AREA 4. Restructuring Companies and Competing Markets
» AREA 5. European Studies and International Relations
» AREA 6. Globalisation and Law: Philosophical, Historical and Dogmatic Foundations and Perspectives on the Future

Humanities in the Contemporary World

The main objective of this programme is to provide students with the resources to explore and develop recent research lines in the Humanities and their application in today's society.

Areas of Research

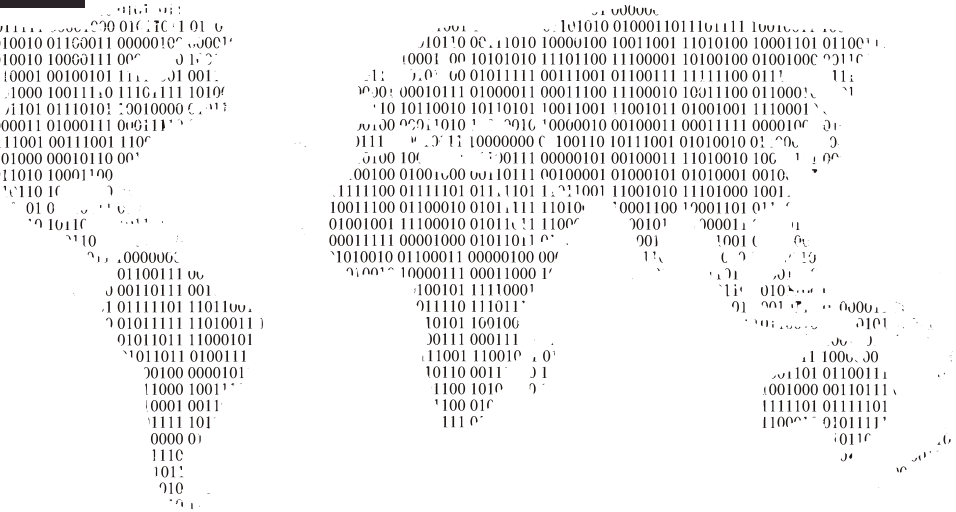

- » AREA 1. History and Society
- » AREA 2. Philosophy and Thought
- » AREA 3. Literature and Artistic Creation

Researchers who undertake this doctoral programme in any of our three CEU Universities seek to improve the quality of care for those suffering from chronic, degenerative and neoplastic inflammatory diseases by working directly with patients and in the laboratory.

Areas of Research
» AREA 1. Clinical and Translational Oncology and Hematology
» AREA 2. Molecular Pathophysiology and New Technologies in Surgery and Cell Therapy
» AREA 3. Pathophysiology, Diagnosis and Molecular Therapeutics of Cancer Metastasis
» AREA 4. Pathophysiology and Treatment of the Neuroendocrine System and Oxidative Stress
» AREA 5. Diagnosis-Treatment Innovation in Internal Medicine and Pediatrics
» AREA 6. Pathophysiology of Obesity, Psychosocial Disorders and Cardiovascular Diseases
» AREA 7. Pathophysiology and Treatment of the Locomotor System
» AREA 8. Multidisciplinary Intervention in Clinical Prevention and Treatment
» AREA 9. Clinical and Experimental Immunopathology
» AREA 10. Experimental and Clinical Dentistry

Don't believe everything you read.

Some think that the university you study at doesn't matter; it's all about the degree. If that's what you think, then this booklet isn't for you. Feel free to toss it (but please be sure to do so in the recycling bin).

If you are still reading this, great! Before you continue reading, let us give you a piece of advice: Make sure to ask a lot of questions before choosing where and what you study. Learn about all of the options that are available to you and then compare and contrast those options to ensure that the university you choose can meet your needs and help you achieve your goals. Don't believe everything you read (not even this). Compare and contrast the information that you are given by visiting campuses or talking to the university's alumni (who will be the most truthful about their own experience). While theory tells us that all universities are the same, practice tells us something much different!
